## EDUCATION

**Bachelor of Technology** (Data Science)

Rishihood University

2024 - 2028

Grade: Pursuing

**Intermediate (Class XII)**

KHEMS

2022 - 2024

Grade: 9.2/10.0

**Matriculation (Class X)**

KHEMS

2013 - 2022

Grade: 9.7/10.0

## PROJECTS

**Capstone Project**, ( [Github](#) ) ( [Demo](#) )

December 2024

**Capstone Project: Retrowave – Welcome to the Neon Future**

I successfully completed a capstone project to replicate a design from **Figma** into a fully functional and responsive website using **HTML** and **CSS**. Key highlights of the project include:

- **Design and Responsiveness:** Accurately replicated the image into a website layout that is responsive and compatible with all screen sizes.
- **Interactive Features:** Incorporated a userfriendly **form section**, enhancing the functionality of the site.
- **Advanced CSS Techniques:** Applied advanced CSS concepts, including **CSS Grid** and **Flexbox**, to create a professional, visually appealing, and structured layout.
- **Creative Thinking and Time Management:** Developed creative solutions for design challenges and managed project timelines effectively to meet deadlines.

This project taught me how to use CSS for realworld applications, think creatively in problemsolving, and manage time efficiently during development. It reflects my ability to translate complex designs into functional web interfaces and demonstrates my growing expertise in frontend development.

## CERTIFICATIONS

**Certificate Of Project Completion**, Devtown ( [Link](#) )

September 2024

This certificate signifies the successful completion of an intensive full stack web development program. The course covered comprehensive concepts and practical applications of **frontend technologies**, enabling to understand system workflows and handle all aspects of web development effectively.

Key accomplishments include:

- Learning to manage endtoend project workflows, improving problemsolving and time management skills.
- Completing all course projects, which demonstrated proficiency in building full stack applications.

The course was guided by industry professionals, providing realworld insights and equipping me with critical skills for dynamic and challenging environments.

**Verification Link:** <https://cert.devtown.in/verify/2vyerFaQ>

**Certificate Of Training Completion**, Devtown ( [Link](#) )

September 2024

As part of the program, I successfully built two projects:

1. **Personal Song Website** – A fully functional website showcasing music content, demonstrating creative use of **HTML**, **CSS**, and **JavaScript**.
2. **Zomato Clone Website** – A replica of the popular food delivery platform, emphasizing design accuracy, user interface development, and responsiveness.

The course, taught by professionals from top multinational companies (MNCs), provided hands on experience and enhanced skills in **critical thinking**, **time management**, and **project execution**.

**Verification Link:** <https://cert.devtown.in/verify/uF6PuZ6T>

**Certificate of Completion**, Devtown ( [Link](#) )

September 2024

The program covered essential web technologies, including **HTML**, **CSS**, and an introduction to **JavaScript**, emphasizing hands on learning.

During the course, I developed a **Spotify clone project**, showcasing practical application of frontend skills. The curriculum was delivered by instructors from esteemed **multinational companies (MNCs)**, ensuring industrylevel insights and expertise.

Beyond technical skills, the program fostered critical thinking, time management, and problemsolving abilities, providing a holistic approach to professional growth.
